# Timely Tips

### **Emergency Preparedness**

In an emergency, services you count on may be compromised. Your family's emergency preparedness plan should anticipate that you may have no electricity, refrigeration or telephone communications.

Keep these items accessible:

- Enough water for 3-5 days
- a tent
- prescription re-fills
- three non-perishable meals
- rain gear and warm clothing
- a sleeping bag or blankets
- a portable radio
- flashlight and extra batteries
- First-Aid kit and sanitation supplies
- A sleeping pad if you have room,
- cash (credit cards require phone lines, which could be down)
- Portable water purifier (If you are driving, bring a few cases of water with you)
- Important documents
- Heavy gloves
- Trash bags

### When traveling:

- Establish a travel route and make it known (map and description) to someone outside the disaster area.
- Listen to local radio stations for information pertaining to weather, road closures, flood alerts, evacuation orders, tornado alerts, and gasoline shortages.
- Avoid travel on rural roads at night.

### Travel hazards may include:

- Possible collision with other vehicles, inoperable traffic lights, downed signs and trees, livestock, washed out roads, mud or flooding.
- Gasoline shortages or non-working pumps in disaster impacted areas.
- No cell or land-line phone communications.
- Uncontrolled intersections, treat as 4-way stops.
- · Confused and stressed animals on roads

### In case of bad weather...

**MEDIA:** Local radio and TV stations, particularly KIRO-AM radio, will carry up-to-date information on school and road closures as well as bus and ferry service.

**INTERNET:** Visit www.psecs.wednet.edu for information on school closures and www.metrokc.gov for a comprehensive list of links to information about traffic conditions, transit service, and other sources for emergency-preparedness.

# Timely Tips

### **Disaster Plan for Pets**

Our pets depend on us for their safety and well-being. Here's how you can protect your pets in an emergency.

- Evacuate them if possible- Leaving them behind is simply not safe.
- Identify help- For security in the event you can't get home, make certain someone who is comfortable with your pets has access to your home, knows where your animals are likely to be, and where your pet disaster kit is kept.
- Know alternate shelters Service animals for people with disabilities are often the only animals allowed in emergency shelters. Keep a list of "pet friendly" hotels and motels, including phone numbers, with your other disaster information and supplies.
- Prepare a list of boarding facilities and veterinarians who could shelter animals in an emergency; include 24-hour phone numbers. Ask local animal shelters if they provide emergency shelter or foster care for pets in a disaster.
- Assemble a pet disaster kit Include: medications and medical records, a first aid kit, sturdy leashes, harnesses, and/or carriers to transport pets safely, pet beds and toys, if easily carried, current photos of your pets in case they get lost, food, potable water, bowls, cat litter/pan, can opener, a list of feeding schedules, behavior problems, and the name and number of your veterinarian.
- Know what to do Bring all pets into the house so that you won't have to search for them if you have to leave suddenly. Make sure all dogs and cats are wearing collars and securely fastened up-to-date identification. Attach the phone number and address of your temporary shelter, or of a friend or relative outside the disaster area.
